

PB-RF-R-230V

# Channels	1	Dimensions	45.5x45x20.3
# Zones	1	Frequency	888mH
Max. connected Load	200W	IP	IP20
Controllability	Phasecut	Input Voltage	100-240VAC
Controller Housing	Compact	Material Housing	Kunststof
Dim	Push/RF	Standby Power	0.5W

Product Description

On 230V, one or more luminaires can be dimmed up to 200W. This controller is also suitable for E27 and GU10. The dimming procedure is via RF or PUSH DIM. Ideal for renovation and new build projects. Also connectable to a remote control.
